Meguiar's
MIRROR GLAZE

105

Ultra-Cut Compound for rapid defect removal & minimal swirl.

METHOD OF APPLICATION:

HAND

ROTARY

DIRECTIONS: Always work on a cool, properly cured paint surface. Shake well. Work one section at a time. Set rotary buffer to approximately 1500-2000 RPM's. Use with Meguiar's Wool Pad. To prime new or dry pads, mist on M34 Final Inspection. Apply M105 Ultra-Cut Compound directly to the paint surface and begin working in a 2' x 2' area with overlapping passes. Continue working until defects or sanding marks are removed. Wipe remaining residue with a Meguiar's M9910 Ultimate Wipe Microfiber Cloth prior to polishing. For final polishing, choose the appropriate Meguiar's foam pad and your favorite Meguiar's polish.

PAINTABLE: Safe for use in the paint shop environment. Safe, VOC compliant formula. Safe on all paint finishes including Scratch Resistant Clear Coat finishes.

TIPS:

- For best results use with Meguiar's W5000 Double Sided Wool Pad
- For pad maintenance and ultimate results, clean pad frequently
- For optimum results on OEM paint use a lower speed setting (1200-1500) and less pressure
- For less aggressive cutting use Meguiar's W7000 Foam Cutting Pad
- M105 is excellent for rubbing out door jambs, and spot hand compounding. Simply apply to a soft cloth, we recommend our M9910 Ultimate Wipe Cloth, & rub desired area. Wipe residue with clean side of towel.

CAUTION: POSSIBLE EYE & SKIN IRRITANT. In case of contact with eyes, flush gently and thoroughly with lukewarm water. In case of skin contact, wash with soap and water. **KEEP OUT OF REACH OF CHILDREN. FOR PROFESSIONAL USE ONLY.** CHEMTREC EMERGENCY PHONE NUMBER: 800-424-9300.
