Incredible gloss, slickness & beading on paint & Paint Protection Film

Can be used in sun & won't stain trim or decals

FOR PROFESSIONAL USE ONLY.
NOT INTENDED FOR RETAIL SALE.

M27

PRO HYBRID CERAMIC SEALANT

Meguiar's® M27 PRO Hybrid Ceramic Sealant is a professional grade SiO₂-based sealant with self-cleaning, tight beading & slickness levels typically only found with ceramic coatings. Packed with innovation like Self-Leveling Technology, M27 delivers lasting high-performance protection across many automotive surfaces, including Paint Protection Films, without discoloring trim or decals.

• Method of application: Hand, Random Orbital, D/A Polisher

DIRECTIONS: SHAKE WELL. For best results, first use Meguiar's® D1801 Wheel & Paint Iron DECON & Meguiar's® Professional Detailing Clay (C2000/C2100), followed by at least one step of paint correction to prepare the paint for M27. Apply small amount of product onto pad, then proceed to apply a thin, even layer of product using overlapping passes to ensure even coverage. Allow product a minimum of 2-5 minutes to cure before removing. Use clean Meguiar's® X2020 Supreme Shine® Microfiber Towels to remove product, flipping to dry side for the final pass. M27 fully cures in 24 hours.

PRO TIP: Use Meguiar's® M799 PRO Hybrid Ceramic Bead Booster to maintain M27 for optimized performance and durability.

NOTE: M27 features unique Self-Leveling Technology – if slight haze or film remains immediately after your final wipe, do not be alarmed. Allow up to 15 minutes for product to self-level, maximizing gloss & protection. If streaking remains, use a fresh towel to remove excess. M27 is NOT body shop safe, but is safe on paint, wraps & paint protection films, but may add unwanted gloss to matte finishes.

PRECAUTIONS: Keep away from heat and flame. Avoid breathing of vapors. Use only with adequate ventilation. Do not swallow. Wash thoroughly after handling. Close container after each use. **KEEP OUT OF REACH OF CHILDREN.**

FIRST AID INFORMATION: Skin Contact: Immediately wash with soap and water. Remove contaminated clothing and wash before reuse. If symptoms develop, get medical attention. **CONTAINS:** Non-hazardous ingredients (Mixture): Dimethicone (63148-62-9); C11-13 Synthetic Isoparaffin (64742-48-9); Cyclopentasiloxane (541-02-6); Cyclohexasiloxane (540-97-6); Functionalized Silica (Trade Secret); Benzyl Benzoate (120-51-4).
