

MALCO[®] EPIC[™] MEDIUM DUTY COMPOUND (1091)

DESCRIPTION

EPIC[™] Medium Duty Compound is specially formulated for use with orbital polishers. It is a correcting and polishing compound that removes up to P2500 sand scratches and polishes to a deep gloss in one step. EPIC Medium Duty Compound can be used for most detailing applications requiring medium correction, such as car wash and snow brush scratches and oxidation. It contains no waxes, fillers or silicones making it 100% body shop safe. It is water-based and easy-to-use significantly reducing clean-up time.

DIRECTIONS

Shake well before using. For best results, use with EPIC[™] Orange Foam Medium Duty Pad in either the 6.5" (#840002) or 5.5" (#840006) size.

- Apply four, 1/4" (6.25mm) drops of EPIC[™] Medium Duty Compound to the pad and spread on surface using your orbital polisher set to 1 or the lowest setting.
- Once the compound is spread, and the pad is nicely seasoned, turn orbital polisher up to 6 or the highest setting and with light to medium pressure work the compound from opaque to clear to ensure you have broken down the abrasives and have brought the surface to a deep gloss.
- Do not buff to a dry surface.
- EPIC Medium Duty Compound is designed to stay wet throughout the entire polishing process to achieve a swirl-free finish.
- Wipe surface with a clean ultra-soft microfiber cloth.
- Follow with EPIC[™] Finishing Polish (#1092) if an ultra-deep gloss is desired.

FEATURES AND BENEFITS
