

MALCO[®] BUFF LITE II[™] FINISHING CREME (1141)

DESCRIPTION

Buff Lite II[™] is a light compound designed to easily remove P2000 grit and finer sand scratches without producing noticeable swirls. Buff Lite II produces outstanding gloss with both foam and wool buffing pads. This unique compound works quickly with minimal dust and haze.

DIRECTIONS

Shake well before using. For best results use with a Malco blended yellow wool medium cutting pad (810147). Apply a 2" dab of Buff Lite II for a 2' x 2' section and spread with the cutting pad. For maximum cutting action, use a wool pad. For maximum gloss, use a foam compounding pad. Do not apply excessive pressure on buffer. Buff at a speed between 1400 - 1800 rpm. After compounding, wipe surface with a microfiber cloth and then apply a Malco glaze or wax to finish and protect.

FEATURES AND BENEFITS

Provides brilliant gloss with one-step convenience	Removes fine sand scratches, moderate oxidation and environmental damage
Cuts and polishes with both foam and wool pads	Contains no waxes, silicones or fillers
VOC compliant	Body shop safe

PACKAGE SIZES

- 32 fl. oz. (Part number: 114132)
- 1 gallon (Part number: 114101)
