

MALCO[®] MICROFIBER REFRESH (1228) CONCENTRATED DETERGENT

DESCRIPTION

Microfiber Refresh Concentrated Detergent is specifically formulated to clean and refresh all types of microfiber cloths and towels. This formula has no added scent, softeners, or bleach and will not leave residue behind. Microfiber Refresh will restore your towels and detail cloths to like-new condition.

DIRECTIONS

Safe to use with any residential or commercial washing machine, including HE and front loading. Add 1 oz. to small loads, 2 oz. to large loads. Avoid mixing non-microfiber cloths, and heavily soiled cloths in the same load for best results. Use warm water if possible, and do not add any fabric softeners during washing or drying process. DRY on LOW HEAT ONLY.

PART # **122801 – 1 Gallon** **122816 – 16 Oz.**

PRODUCT FAQs

Q1: What size container is the Microfiber Refresh available in?

A1: 1 Gallon – which will clean 64 to 128 loads. And 16 Oz. – which is good for 8 to 16 loads.

Q2: Can I use the Microfiber Refresh on non-microfiber towels?

A2: Yes, however Malco recommends washing any non-microfiber separately.

Q3: I'm used to using bleach and fabric softeners when I wash most things, is that necessary?

A3: No, this formula is designed to stand alone and doesn't require any additional components.
