

MALCO® AQUA BEAD™ ADVANCED SILICONE-SUSPENSION DRESSING (1296)

DESCRIPTION

Aqua Bead™ concentrated formula, is a waterborne, polymer-enhanced, silicone-suspension dressing. This innovative formulation activates with water and directly deposits silicone onto the surface. Aqua Bead's high gloss and durability combined with its superior water repellant properties makes it ideal for rubber, plastic or leather surfaces such as tires, engines, bumpers, trim, moldings and interior surfaces.

DIRECTIONS

SHAKE WELL BEFORE USING. Spray or wipe on to a dry or wet surface, applying a thin even coat. Wipe off excess and allow sufficient time to dry. Aqua Bead should be diluted 1:1 for dressing the engine bay and tires, up to 1:2 for exterior surfaces such as trim and cladding, and up to 1:3 for interior surfaces for greater economy. CAUTION: Dressed surfaces can be dangerously slippery. DO NOT dress pedals or steering wheels.

FEATURES AND BENEFITS

Dilutable for variable levels of gloss	Long-lasting, high-gloss shine
Restores "like-new" appearance	Protects interior and exterior surfaces
Apply wet or dry	VOC Compliant

PACKAGE SIZES

- 1-gallon (Part number: 129601)
- 5-gallon (Part number: 129605)
- 30-gallon (Part number: 129630)
